SSL + Automatic publication of

your ads on Gumtree == Compare
to other applications == + Free +
Runs on windows and MAC +
Customizable interface + AdLight
support - Doesn't include posting
on Facebook directly with signed
app - Allows users to create more
than one Ad campaign (or
multiple accounts) for each
posting site PhlashPC Ad

Scheduler Description: This is my android version of PhlashPC that will allow you to schedule your ads to be posted in real time.

When a device connected to a Wi-Fi network, it will automatically send the ads to the ads posting sites for posting. When the device is turned off or disconnected, the posting will resume as soon as you

turn on the device again. Will include a Workflow app that will allow you to edit all your campaigns. All your accounts will be listed there. You can browse it without disconnecting your device to another account. No need for your passwords, and no need to open it and login to other accounts. AdLight support =>

AdLight profiles: * Ad Lights = Light, Medium, Dark, Darker & Darkest * Relay on Wi-Fi (as soon as a device connected to a Wi-Fi, it will send the ads to the posting sites) * Relay on GPRS (as soon as a device connected to a GPRS, it will send the ads to the posting sites) * Relay on 3G (as soon as a device connected to a

3G, it will send the ads to the posting sites) =====> Create
