Vag Com 12.10.3 Crack! - software.vagcom.com . May 24, 2018 The fuming fast pace of world events was summed up over the weekend in a typically fast-fingered mash-up of historical fact, truth and fiction by a number of figures over the weekend. A newly revealed interview with ISIS leader Abu Bakr Al-Baghdadi, and a supposed confession by a captured Syrian fighter were among the headlines of the past few days, but the highlight has been a single tweet from Rep. Paul Ryan (R-Wisc.). Voting down a \$5 billion request from the Obama administration for the next fiscal year on the grounds that it won't adequately help the situation of Syrian refugees, Ryan's missive made him a media darling. ...it also shows the right to have ideas without being ruled by the jackboot of a police state, even if you're not a Republican. In other words, in 2016, true independent thought is not allowed. On Facebook this week, I shared a common liberal take on the whole thing. It contained this comment by "Michael L": ...as I've argued before, I would rather have a 'slow refugee' situation that spreads knowledge about liberty rather than a fast one that results in violence that could be prevented. ...I wish things like this would seem a little more prevalent among Republicans. Maybe we should use this for what it is, a failed attempt at diplomacy and take a lesson that we're supposed to be the party of peace. ...[It] isn't like many won't support some limited and kind of "coddling" of Muslims to deal with the situation. But let's take the opportunity to actually have an argument about the merits of an open-border policy in general and to not be afraid to speak out in support of the libertarian mindset. And that's the thing about politics. 82138339de
