#### a. Pixel Perfect

- This is the lowest resolution display.
  - Your screen should initially display 640 x 480 pixels. Some older displays might not be supported at this setting.

**What's new:**

**Ideas & Decorations- Where to Buy** This year's coverage is a little different than previous years. It includes some stuff that didn't have a home all year. Here's my collection of where to buy- Knockout Party Ideas and Decorations. Remember that this is just a breakdown of what's available. I would love to try many of the items on this list that had no home in 2012. To do that, I'm going to need your help. I'm going to re-post the list for 2013 when the new year rolls around so that you can share some ideas of where to get good stuff- and where the ads are for 2013. I promise to update the list of where to buy throughout 2013. Knockout Party Ideas Supplies to Get This is for the party not the manger. For great games and craploads of fun- pick up a copy of the toys section of days later newspaper. Or send in a check or money order. It's a great birthday party for boys to get that toys section (usually in the Sunday paper.) Visit with the kids and help unwrap. If your busy mom (like me) has the energy to help out- of course, it's your party! Set out something "like" toys to represent the age group of your guests. Load them up as you go through them. Mix up the unboxing to make sure that it's not the same thing all of the time. Fun safe birthday party ideas. Sometimes mom and dad can help as well. Throw in some prizes each time you change out or un-wrap a selection. Have some good friends or neighbor kids take it from there- maybe a \$5 gift card for every 4 or 5. easy birthday party ideas. Take these traditional pajamas along with some dress up outfits and a few themed rooms. Find a fold out table, armchair, and stools. Have your kids pull out the pajamas, pick their matching outfits, and choose decorations to frame and decorate their room. Birthday party set. I think that these would make a fun party or a fun home or just a great thing to do- especially if you played with them as a kid. Have some friends build you a little star ship. It can be fairly simple. They write their names, put faces in the windows. Make your own pizza maker? Or a set of theme cakes that you can pick up

The master of darkness and order, chaos and chaos-master, our faithful friend the Ouroboros feeds on souls. It is a devilish creation, which requires all parts of an evil soul: first, the lust, then the wrath, then the intelligence, and finally the wisdom of the creator. Once they have eaten all four parts, they spurt forth another devilish creation from the deepest abyss, a new soul. Evil spawns evil, with a great hunger that can never be satisfied. The cycle will never stop, and with it, evil will always be victorious. This is the world of the White Wolf. In this place, chaos reigns supreme. To survive, you need to remember the stars and use all the colours they represent. To have the great and weak, the wise and the foolish, to eat and live for eternity. You must control the chaos if you want to defeat it and ascend to become a star. This game could also be described as an epic quest in a twisted fantasy world, where you have to control a regular, ordinary, mortal soul that has just been reincarnated. He is alone in an unforgiving world, and he needs to remember everything he knows and do so within the time allowed. What will you choose? Features: Story Mode: Get ready to get killed by our guy. Fight the devil's power with your own. Control and manage your villagers. Play with up to 4 friends. Play Single or Multiplayer modes. There is more to come! Easy, intuitive control: The game is very easy to play and requires no experience or training, but mastering the basics could take a while. The basic controls for the movement are the arrow keys on the keyboard, and the arrow keys from the controller. Connect to Facebook: Easy to sign in with your Facebook account. Your Facebook profile can be used to receive a pre-generated character, which makes the game even more fun. Social & Multiplayer features: Create new friends & level up. Complete challenges with friends. Join a guild. Customize your own avatar. Chat with friends. Includes a level up system, shared character selection, player profiles, a guild, and a multiplayer mode.
