Can you ride the roads, and get out of there alive? Wheel Rider Online is a free-to-play racing game which mixes casual and real-time gameplay in a unique 3D graphically rich environment. Explore the world and collect coins and scrolls to earn new cars. Race to the finish, overtake your opponents and collect as many coins as possible. Fasten your seatbelt, the action starts now! Build up your character and rank up to unlock new car skins. If you're feeling brave, enter the tough game mode - Epic. Here you get to race in the very different Hyper Racer mode, with new cars and tracks! Download and play now! For your free coins and scrolls, just click the "Download" button in the game menu. www.wheelracer.com SteelSeries and Wobbleworks are partnering to bring the ultimate gaming mouse to PC Gamers.

Like the SteelSeries Nimbus and SteelSeries QcK, the SteelSeries Rival 601 is designed to give you an edge in today's fast-paced, high-octane gaming arena. And what better racing game to test the limits of your mouse? Features: Featuring Rival's Extreme Tracking The Rival 601 supports the multi-surface tracking of dual-adaptive sensors, and is completely optimized for gaming situations. 3200 DPI Precision Aiming with Free Flight Rival's sensors can be switched between the high-resolution Dynamic mode (1600 DPI) and the free-flight mode (3200 DPI) with just a click, giving you ultimate control and precision when it matters the most. Extra grip, extra style. The SteelSeries Rival 601 is set up and ready for racing. The extra grip and stability mean that you'll be able to focus on your high-octane game without sacrificing comfort and control. Redundant Safety and Redundant Performance Being able to switch between two different sensors and modes allows for extreme precision aiming and quick response with one hand, while retaining high performance with the other. Operating System: Windows 7, Windows Vista, Windows XP, Windows 2000 Service Pack 3, Windows NT Service Pack 4 This mouse is ok. It's not actually a SteelSeries mouse, but it's very close. I was a bit disappointed in the cursor size, it's not quite big enough

Features Key:

- modify frequency of wheel and steer angles
- adjust steering
- set backward and forward speed

Mark Benza About the Game: Wheel Riders Online is a world-wide multiplayer

racing game where players can race against their friends or opponents. They can race any time, any day, over any distance and on any track, and it all takes place in the beautiful and vast World of Wheel Riders Online. Players can race on any open world track, compete for high scores or simply show off their best cornering skills.

More than 70 tracks from around the World are available. The ability to race on vehicles of any shape, size, power or performance is also important. Vehicles can be tracked down over the entire map or even be saved to online storage. There is

something for everyone! Racing is at the heart of the game, so there are nine different classes of cars available and there are different classes of competition:

Evaluate your potential in a free trial. Each trial allows you to play all the game modes, i.e. regular, time attack, training, etc., with up to 4 players on 1 vehicle.

Your skills will then be evaluated. Now that you've tried the game you can start playing on the server closest to you. Features: Playable in single player as well as in multiplayer. Play all new courses, and familiar ones, such as Hydro Tank. Play all tracks with the new features added by the 'i-COURSE' tools. Unique features such as an integrated multiuser chat and online saving. Achievements for each game mode and level. Brand new achievements that are very different from the former ones, requiring you to collect new items. A single mode with no time limits and no maps. A multiplayer mode with up to 4 players for up to 20 minutes, until the fuel is depleted. In real time, direct competition between opponents. An infinite number of people to race against. Customizable controls for each participant. Online saving with one-touch, one-way network access. d41b202975

The NA+ Package contains the game's soundtrack in Key Version and the game related artwork in Game Version. The US Package contains only the game's soundtrack in Game Version. The US+ Package contains the game's soundtrack in Game Version and the game related artwork in Game Version. Packages will be sold via Steam only. Please note that the soundtracks of our game titles are sold in specific packages that include game artwork, so please do not confuse the Soundtrack and the Game packages.

2. What are the packages for? What is the difference between the packages? Different packages contain different content. They can be purchased separately or in sets. You can choose which package you want to purchase, depending on your needs. The Key Version contains the game's soundtrack only. The Game Version contains both the game's soundtrack and the game related artwork. The Key Version and the Game Version contain the same content, but in different package types (Key and Game Versions), so there is no difference. The Soundtrack contains all the 10 tracks as they were originally composed and arranged for a soundtrack. The Game Related Artwork contains the game's concept art as the in-game image and the game manual as the in-game image. Please note that the soundtracks of our game titles are sold in specific packages that include game artwork, so please do not confuse the Soundtrack and the Game packages.

3. I have already purchased the Original Soundtrack for Wheel Riders Online, why do I need to purchase the game related artwork? The game related artwork is the content that you cannot buy individually. Only one package at a time contains the game's soundtrack and the game related artwork. We added the game related artwork to the package because the game contains awesome concept art, game manual and in-
