Vesicocutaneous fistula after simultaneous injection of alcohol and bupivacaine for retroperitoneal injection of botulinum toxin A for benign urologic disease. We treated a case of painful benign urologic disease with retroperitoneal injection of alcohol and bupivacaine for botulinum toxin A. Injection of alcohol and bupivacaine for retroperitoneal injection has been described in the literature only for interstitial cystitis, and we were unaware of the potential risk for vesicocutaneous fistula formation. Injection of alcohol and bupivacaine should be used with caution.

Ignition remixed "Ignition remixed" is a remix album by the American rapper DMX. It was released on August 31, 2003 by Ruff Ryders Entertainment, the label led by DMX. The album peaked at number twelve on the US Billboard 200. Critical reception Jason Birchmeier of AllMusic gave the album 3.5 out of 5 stars, saying that the songs that "haven't been touched by one of rap's brightest stars make this more a testament to the power of the remix itself than to the strength of DMX's original material". Robert Christgau was also favorable, calling it "more enduring than most of the rest of his albums".

Track listing Samples The album contains samples from the following songs: "I Can" - Dr. Dre "Mister Don't Mention It" - The Notorious B.I.G. "We Gonna Make It" - Dee Dee Sharp "MacArthur Park" - Henry Mancini "Things You Said" - The Isley Brothers "Don't Make Me" - The Jackson 5
